

CMA Doctoral Scholarship Program

Overview

The CMA® (Certified Management Accountant) is the gold standard of certification in management accounting. It is unique among professional and academic credentials, designed specifically for accounting and finance management professionals in business. Achieving the CMA designation demonstrates professional expertise in financial planning, analysis, control, decision support, and professional ethics – essential skills sought after by successful organizations and their financial team leaders.

IMA® (Institute of Management Accountants) is committed to supporting the education of future accounting and finance professionals working in business. As part of this effort, IMA created the CMA Doctoral Scholarship Program, which honors doctoral students by recognizing them with this scholarship.

Recipients of the CMA Doctoral Scholarships will receive a comprehensive package of benefits enabling them to study for and take the CMA exam at no cost. The benefits include:

- IMA academic membership for three years
- Entrance fee to the CMA program
- Exam Support Package – an assessment tool that can help assess the content covered on the CMA exam
- Registration fees for the first attempt at both parts of the CMA exam
